UNDERSTANDING
THE POWER OF
LIGHT IN **DARKNESS**

Life is a package of dark ends and bright ends .It is upon one to determine how to live through both extremes . THE POWER OF LIGHT IN DARKNESS is a seasoned write up that presents without prejudice the realities of life .Reading this book will help you up your life game for it expounds on the mystery of existence .

This book calls us into action to define our operational and definitive standards of the life we want to live. You rise up and create an arena of patchy areas of darkness and sorrow or bright ends of happiness. Before you curse the darkness, let this book show you how to light a candle in it.

About the Author

Engineer. Fred W. Wafula is a dynamic man of God, excelling as a born-again preacher, vocalist, songwriter, music minister, and mentor. He's passionate about guiding youths to discover their God-given potential. His recent worship songs have impacted lives worldwide. In addition to his spiritual work, he's an EPRA-certified electrical engineer, motivational speaker and an author. Fredrick, happily married to Cynthia Muindi, resides in Yatta, Machakos county, with their two sons.
