ACKNOWLEDGE MENT

We have to realize our value, purpose and destiny. We all meet storms in our educational work and any other activities with the same pace we have to get motivation to keep us going.

Another chance will just keep reminding you, like any other youth facing challenges, hard time in this changing world I saw the need of writing this to encourage souls to redeem lost faith and hope.

Special thanks to almighty God for granting me and you such a healthy life and generation. It's a chosen generation indeed.

To my parents who took good care of me may God bless you, Mr kizito Aluvala Musundi and Pamela Egehiza Aluvala you showed exceptional love to me and my siblings, congratulations!

My brother Melvin Madaga, sisters Gloria Muhenje Sharon Musilivi and Precious Mmbone thank you for being good siblings you will always be a source of joy

Mr Katila who inspired me to join the world of motivation.

owen mulinya kizito #another chance

Mr Chege Njoroge from Molo academy primary for playing a major role and his supportive nature thank you very much.

My primary school teachers you were always ready to inspire me to greater heights.

My secondary school teachers, Molo academy. I acknowledge you for your support.

Introduction

We all get to a situation where we think adversity and storm have overflowed beyond our dealings. Yeah sometimes it may be true but don't sit down and relax God has given us another chance, a chance to redeem our faith, blessings, hope and success. It's not over until God say so. He restores the lost time. He renews our strength through adversity. God is going to double our blessings for every unfair situation in our life.

Another chance has five chapters that are going to stimulate the success in us. This book start with a section called Be yourself this is an essential element, we can achieve by being who we are, it starts with me, the world is being changed by people who dare a dream that dream can only be yours we can't share. God has given us another chance to be our self and move on.

We can only avoid living a mediocrity life when we accept to be our self. You were born to thrive and not survive survival mode only comes when we accept to live a mediocrity life but we still have another chance to thrive.

In self-motivation it entails faith hope and fear. We need to have that inner motivation, self-drive that will keep propelling us to the next level we all need to be self-motivated.

owen mulinya kizito #another chance

You were born for greatness every individual has a seed of greatness within, it only takes a divine step to realize the potential of achieving it.

Finally, in pursuing success. Success is not paraded but discovered and we can only discover success when we fulfill the above four values, our main aim being living a successful life. Success in your education, business and any other activity can be achieved only if we forget our failures and utilize the other chance.

Chapter one.

*What lies behind us and
what lies before us are
tiny matters compared to what
lies within us.*

~ILIVER WENDEL~

Be your self

Have you ever realized something? We all desire a successful life, a good grade, a nice house, a car and also a good husband, wife and as well as wonderful family alongside small kids. Yes, we can all achieve this since others already achieved. They are our mentors, as much as we dream of getting there some of us get stuck and we end up living unfulfilled lives. It's not a surprise to many as it may be how it all started by not accepting to be ourselves.

Think of an eagle. A creature that is exemplary different from other living birds. What do you love about the eagle? They

owen mulinya kizito #another chance

accepted to be eagles, they have their own standards and principals. Do you have any? It doesn't matter from which background, estate or tribe it only occurs when we take a divine step towards our success.

Eagles have strong vision. They have the ability to spot prey from a big distance they don't strain. They don't just have a vision but a strong vision. Vision motivates, it brings hope you ought to possess. A life without a vision is like a bus without a driver it will never move.

Eagles sore high. Soaring high may not be a competing factor to us. It may be because we have been trying without a single success but as a youth soaring high is all about our books, our talents and ambitions

if we read, read, and read our books only God limits where we go in our lives (Ben Carson).

Reading should develop as a habit not because we enjoy it but the vision and the ambition within us can change the circumstance around us.

Eagles eat fresh. Have you ever realized that eagles are different from vultures and hyenas, whereby the two animals run after carcasses while eagles run after fresh food? what we

owen mulinya kizito #another chance

eat have a great influence on our habit, appearance and behaviour. If you eat selfishness, you will be selfish, if you eat good character, you will portray quality behaviour. What do you eat? What Ben Carson emphasizes about reading, it should be our meal studying hard or smart is what will always bear what we want in life.

Eagles are what they are because they accepted their situation, are you ready to be yourself. Some may say our friends were born lucky it's all about effort and working with God. What makes a difference between people is time, someone is what he is because he appreciated and used the time well.

We may be lucky to be born in the 21st century where everything is digital for our case land is scarce but we have plenty of creative brains, we can move our brain from different places worldwide but we cannot move land thus we should feed our brain with knowledge by reading and reading. What if we develop reading our culture? Our society would change from eat man society to a place where everyone is determined to make a change to improve someone's life to motivate and to encourage hopeless hearts.

In my years of schooling, I have always met old guys aged 40-60 years and from there talks or at the end of each conversation

owen mulinya kizito #another chance

they attire such words “if I were at your age I would study hard”. Yeah, if wishes were horses, are you ready to tell your children, grandchildren the same saying. Do you want it to be our culture that if I were young again? This is all about utilizing the opportunities we have the time given to us. Time flies, be its pilot, the famous saying in my former secondary school, are you ready to move with time, then you have to accept who you are. It’s not by chance that we were born in different backgrounds, but if you vividly search for a reason, you will realize that God has a purpose with us. We are in a situation because it will sharpen us but not to be a victim of the situation. Don’t be selfish of your own, gain strength, stand still and accept who you are.

We may not be perfect or have much experience on this world but what we got is that we should always crave to leave better impressions at every place we step not because we want fame but because somebody inspired us motivated and participated in improving who we are.

Are you ready for change? You ought to because life is a marathon, though an old saying but if you realize that everyplace you are in life is a marathon you will start appreciating the importance of time well spent. Don’t wait

owen mulinya kizito #another chance

until you are old then you start running back to school if you got the time use it well.

~ Dream big ~

Dreams are what makes us. Many are the times where we fear the unknown, they limit us to our full potential but if you take a step with courage, strength and boldness to face the unknown trusting that God is in control you are going to make it happen. Destiny is need of what you are.

Get up, pursue your dream, you were born for greatness to achieve greater things. Dreams are not fashioned from the desk but through engaging in activities no matter how small the activities might be it will surely create a difference.

Though it was a year of political tension and economic regression many businesses slowed down and even others activities but let them be the stepping stone to achieve more and more they should be the catalyst of as pursuing greatness the future is in need of you don't look down upon yourself you are great, worthy, purposefully destined.

owen mulinya kizito #another chance

Dream to be a star because you belong to the stars you belong among the stars you can inspire galaxies of greatness for brighter destinies as long as you have faith and trust in God you will surely make through.

Many times, we forget our dreams because of fear, lost hope and lack of faith remember that if you feel discouraged think about courage, if you think about dying think about living for greatness, if you fail think about success and if you feel sick think about good health, it all starts with a divine step of having faith.

Genesis records about Joseph and his dreams. Joseph dreamt of greatness, to rule, to be a king though there were setbacks and struggles through his life he eventually became one. Dreams are valid no matter how small they may look.

⁵Now joseph had a dream, and he told it to his brothers; and they hated him even more. ⁶ So he said to them, “please hear this dream which I have dreamed: ⁷ “There we were, binding sheaves in the field. Then behold, my sheaf arose and also stood upright; and indeed, your sheaves stood all around and bowed down to my sheaf” (Genesis 37:5-7)

owen mulinya kizito #another chance

Share your dreams with people who have a like destiny and are pursuing greatness. Not all people are worthy telling our dreams, from Joseph's story he told the brothers but they were not happy they had plans to make the dreams perish but Joseph trusted God and He was in control Let the sky not be the limit but the beginning.

Back in secondary school I struggle to get a good grade in English, I always became the last in class, I never thought it that way but never say die. I kept pursuing my dream and now you can read a book written in English not because I gave up or I was a failure but I had someone who inspired me who believed in the beauty of my dreams and made me achieve more than I thought my English teacher my class teacher Mr Maina. He taught me to be a go getter not just in life but in the world of studies as a student.

~ Aim higher ~

Don't aim at the moon there is much more behind it, a good future doesn't possess intimidation, stress, heartbreaks, discouragements and hopelessness. You must accept that it's your time to achieve and prosper you are closer than you think as long as you seize your God given opportunities. Surely you will be who you want to be, the destiny is in need of you.

owen mulinya kizito #another chance

You have to give your dreams a new beginning it might be dead, you have to gain that passion and enthusiasm to redeem the lost dream. You may ask so many questions.

Owen, “I failed many times can I make it?” Yes you can get up success is in need of you.

Owen, “My business isn’t working, get up and fight, profits are awaiting you.”

You only need the urge to keep moving on. keep pressing forward everything is possible.

The seed of greatness is within you, you have to let it sprout by living in a health environment. Don’t live in an environment of discouragement, hopelessness and judgmental, move to a healthy environment that will make those seeds of greatness sprout again. Your dreams will become valid if you have to keep off from unhealthy environment. You were made in God’s image and likeness. That is in Genesis it says let’s make man in our own image and likeness thus we belong to the bloodline of the supreme being. We have the blood of God the DNA of our maker. We have the DNA of greatness, inspirational and of achievements. The DNA to move beyond

owen mulinya kizito #another chance

the sky for a brighter future, to achieve and discover our destinies.

In most cases there is something that move with the bloodline of families, traits are passed from parents to children. If your father is a footballer, you will find yourself possessing those traits of playing football, they are within the bloodline. It is our father God whom we possess his bloodline we should aim at achieving greatness. Our God is not a failure but a God of abundance.

In the scripture the book of Jeremiah says “I knew you before you were born, I put you in your mother’s womb” and the same Jeremiah reminds us, God has good plans for us plans to bring prosperity and not disaster. God already determined the best destiny for us, it is now our responsibility to take a divine step into the prosperous future by breaking the strong holds of our past.

For I know the thoughts that I think toward you, says the lord, thoughts of peace and not of evil, to give you a future and a hope.

Jeremiah 29:11

owen mulinya kizito #another chance

The seed of greatness was within Jeremiah similarly to ours. We have a mission to complete, we were called for a mission, a responsibility to fulfil and dreams to accomplish. Don't give excuses an era of excuses has elapsed this is a new beginning a new sky we belong to the stars we are champions.

Jeremiah had to complain maybe he had not realised the seed of greatness within him but finally he accepted the calling. You may say;

Owen "I am not up to the task" Yes you are up to the task because you have a destiny and a responsibility to fulfil.

Owen "I can't understand anything in class" You can it's only that you don't want to put into practice.

²³But as they sailed, He fell asleep. and a windstorm came down on the lake, and they were filling with water, and were in jeopardy. ²⁴ And they came to him and awoke him, saying, "master, master, we are perishing! " then he arose and rebuked the wind and the raging of the water. And they ceased, and there was a calm.

(Luke 8:23-24)

owen mulinya kizito #another chance

When Jesus and his disciples were travelling in the boat, a heavy storm came but they did not know how to go about it. They had to awake Jesus to calm the storm. You have to awake the Jesus in you to make greater things happen. Awake him you will realise profits in your business, strength when you are weak and understanding when you can't understand.

It is your time; it is time for you to believe in yourself. [Joel Osteen]

God blesses you if you accept yourself don't spice up life with anxiety, fear, stress and sickness they will lead to depression and unfulfilled life. You have to be ambitious & enthusiastic because it is your time.

~ Accept your situation ~

1st Samuel tells the story of king David from his childhood to the position of a king. The day he went to take lunch to his elder brothers, he saw the Israelites fighting against the Philistines and David saw fear among the Israelites because of Goliath who was so huge and David saw an opportunity to utilize and realize with the help of the Almighty he would win, when he suggested to the king and soldiers he was discouraged by his own brothers. Finally, they accepted after he kept

owen mulinya kizito #another chance

insisting and was given the war attire but he found them too heavy for him, he removed and told them it's better if "I remain whom I am and I will win the battle". You have to accept your situation yourself, before you can move on, David could not even make a step with soldier's heavy clothing but he knew that God blesses those who accept themselves. Don't copy what others do.

David refused to listen to the discouragements he knew for things to work he must be in a healthy environment and David won against the Philistines. Surely the battle belongs to God. If we let God take control of our lives and we do what is expected of as we are going to win and discover our destinies.

It's so surprising that only a stone and a string won such a war. Yeah, it is through the ordinary that we can achieve the extraordinary, it is through our books that we inspire nations, it is through the small business that you will manage companies and it is through your dreams that you will fulfill and meet your destiny as long as you accept who you are.

Through this life you will see that life is a journey and it has challenges overcoming these challenges are what gives life a meaning and through overcoming we shall always meet obstacles but use them to make a bridge and not a wall. You

owen mulinya kizito #another chance

will meet unfairness but let it be a catalyst to your blessing.
God is going to double your portion to double your blessings.

I believe I can. Don't wait until you are aged is when you start struggling with what you could do at your early age, the time is now get up and shine.

Champions, kings, queens are who they are because they believed in themselves, they accepted their situations. From today be yourself.

YES, I CAN.

owen mulinya kizito #another chance

Chapter two.

There is no real excellence

in all the world

Which can be separated

from right living

~David Jordan~

Avoid living a mediocrity life

We were born to thrive and not just to exist. we're sons and daughter of the most high called for a purpose to fulfil, for a destiny to meet and a responsibility to accomplish.

As much as we live, we should avoid living a mediocrity life, a life of self-condemnation, lack of confidence, not believing in yourself and listening to accusing voices.

That is not our part we should paddle our boats though there are wavy storms but that boldness and courage should guide us to the further end.

owen mulinya kizito #another chance

Exodus will tell you about Mosses. Mosses ran away from Egypt only to look after goats and sheep in the desert but that was not his calling, he was to guide millions of people for forty years. He tried to give excuses but God had already placed a mantle on him for that mission, we were born to fulfil our mission, we are sons of the most high God, have a positive attitude toward yourself.

When Pharaoh heard of this matter, he sought to kill Mosses. But Moses fled from the face of pharaoh and dwelt in the land of median; and he sat down by a well.

(Exodus 2:15)

Moses had no positive attitude towards himself he thought he was a stammer and that would hinder the calling, God is going to make that issue that you think is a problem to realize your success. Joseph had to go through a pit, a prison to be a governor in Egypt, he never remained in that pit or the prison he came out victorious. Let our past not hinder who we are, don't remain in that prison of failure, discouragement, fear and negativity. You have to come out victorious to fulfil your purpose.

owen mulinya kizito #another chance

The past is good place to visit and not a good place to stay, if we stay in the past, we will never realize the future. We came from different places and every person in life has a story about the past what if we dwell in it, we will never accomplish our dreams.

You know “I come from a poor background”. That is all about the past. A poor background doesn’t mean you can’t fulfil responsibilities stand up and shout, yes, I can.

You know, “I have always performed poor in math” Ooh! No that is not so, you know you can perform as long as you assume deafness to your past. You are poor that should not determine your destiny, let it be the past and now the past is gone, in high school I was poor in some area but I didn’t let that negativity determine my destiny. You may be asking yourself.

Owen “My grandfather had high blood pressure,” but who told you, you are going to have it, the past is gone.

God is in control; you will live a healthy life.

What if Joseph could say, you know I was a prisoner I can’t do anything in life. He could have never been the minister but Joseph learnt to shake the past, he knew the future holds a brighter destiny for him. Are you still holding the past? Let it

owen mulinya kizito #another chance

go, you have a DNA of the most high, a DNA of greatness, of thriving and not surviving in mediocrity. Destiny is in need of you.

~ THE POWER OF ASSOCIATION ~

“I have been crucified with Christ; it is no longer I who live, but Christ lives in me; and the life which I now live in the flesh I live by faith in the son of God, who loved me and gave Himself for me.”

(Galatians 2:20)

Paul is trying to remind us of whom we should associate with. Paul himself associated his life with Christ, he knew the benefits of associating his life with Christ.

Who are you associating with? It's a critical question that would help you come out of a mediocrity situation as much as we associate our lives with Christ, we should also associate it with people who build us encourages us and inspires us to reach our limits. People who will always remind us to keep pressing forward.

owen mulinya kizito #another chance

Associate with five successful men and you will be the sixth successful man, there are steps that you will always realize when you associate with the wrong or the right people:

Association

This is a connection between two parties when you come together to achieve a common objective you associate and it may be a good or a bad one. Always associate with right individuals to realize your destiny. Never associate with mediocres you will never excel.

If you feel sick always associate with healthy individuals you will feel healthy, if you feel like a failure associate with people who are successful, you will succeed. Never remain in that state of survival. You can do more than surviving. You were born to thrive.

Assimilation

Association results to assimilation you will start behaving the same way as the group you associated with. The objective of the association will dominate over you. You associate with failure you start assimilating failure behaviour, not attending classes, over sleeping even in class time. Assimilate good virtues from the right people, virtues of encouragement, inspiration and motivation. Avoid assimilating bad culture like tribalism, corruption and failure. Let go of bad assimilation.

Impartation

This is the final step of association. Impartation is when you take part of their behaviours and now you put them into practice. You will always realize this step when you start regretting or celebrating. What if you associated your life with God, you will impart the right ways, your dreams will become a reality, things will start working. Your education will thrive; your business will excel. We should seek to impart the right behaviours. Nobody was born a mediocre but what we implement may make or destroy us.

Let this year be a year of imparting and implementing the right ideas.

~ Stop listening to accusing voices~

Over the years I have realise one thing that destroys a person it's opening ears to accusing voices. Sometimes it's worth being deaf to some voices. For me to come up and realize my dreams I was buried in mediocrity by accusing voices. Learn to listen to what will only improve your life. They would always remind me, am a joker, failed in English, those were

owen mulinya kizito #another chance

accusing voices. Learn to be deaf to such negative voices a friend of mine introduced me to an institution called champions leadership, this guy always reminded me of how life is positive and encouraged me and that is how I started realizing my potential. I felt a second touch, I saw another chance of being and to claim my birth right.

Yeah, it's true that words can destroy or create, why don't you learn to tell your friends positive words that will encourage and motivate them. Don't listen to words that will bring you down. Always move to a healthy environment, remind yourself again and again you were born for excellence.

Be like the blind Bartholomew, the scripture record that he was sitting by the road and he heard that Jesus was passing. He started shouting for healing, people who were next to him told him to stop the noises, he never listened to the accusing voices Bartholomew continued shouting until Jesus heard his voice and healed him. He never settled for what people wanted but for What he wanted.

⁴⁷And when he heard that it was Jesus of Nazareth, he began to cry and say, "son of David, have mercy on me!" ⁴⁸ Then many warned him to be quite; but he cried all the more, "son of David, have mercy on me!"

(Mark 10:47-48)

This reminds you never settle for the accusing voices of your close friend, you are not a failure, you are not a fool, have the courage and boldness to accept your situation and discover your destiny. What if the blind man could have listened to the people around him, he could have never received his sight. Don't remain in the prisons of failure while you have the key to move to greater heights. You were born to excel.

God wants us to settle for excellency and not mediocrity. He created us to be heads and not tails. Why do you want to settle for less, why don't you want to achieve your dreams and God is in control of everything? Most of us live the life and end up miserable instead of a healthy and happy one. This is to mean that in everything that we do we have to build confidence in ourselves. Lack of confidence is the fall of many kingdoms and nations, lack of confidence is the starting point of failure and business losses, build confidence.

Saul could not win against the Philistines because he lacked confidence with his team not until David a young man showed up with a lot of confidence in him. David believed in himself, he believed in God that everything is possible. You need to build confidence in everything that you do.

owen mulinya kizito #another chance

David is just one among the few young men who should make you believe in the beauty of your dreams. You ought to desire for excellency don't settle for less, don't settle for mediocrity be inspired by David, he brought victory to the Israelites this made Saul curious about David and stated asking many questions.

When Saul saw David going out against the Phillistines, he said to Abner, the commander of the army, "Abner, whose son is this youth?"

1st Samuel 17:55(a)

Stand up and be among the few who employ confidence in their dealings, you will not be disappointed. May it be education, business and any other activities you are involved in, people will admire your determination, generations will learn about you and appreciate you because you had confidence. Stop fearing the unknown if David could listen to the brother's voice and some of his colleagues, he could have developed fear. Face every challenge in life with confidence, we were born to give solutions to this generation.

David gained victory over the Philistines and he was made a king at his young age. It's just by making prayers a steering

owen mulinya kizito #another chance

wheel and not a spare wheel that will always keep you going. God blesses the work of our hands. Build confidence and relax chase your dreams with vigour and persistence God will reward you.

~ ARE YOU A RISK TAKER? ~

We all deserve excellency and we have to strive for it. One crucial factor that we forget is about taking risks. The world is being changed by individuals who take risks in their activities. Are you a risk taker? Or are you still fearing the unknown?

Most people believe that it's only business individuals who must take risk everybody is entitled to take risks as long as you desire Excellency. It is believed that those who venture in the riskiest business are the most successful.

Don't be afraid the scripture always reminds us each day we wake up, do not be afraid for am with you. Our God builds confidence in us why should you not build that too and take risk. Stop fearing the mathematics teacher go to him and remind him to show you some mathematics after class. Take risk by meeting a Christian religious education teacher with an English text book, remind him English is

owen mulinya kizito #another chance

almost becoming a Goliath in your academics. He won't hesitate helping you, grasp that context, he will surely make you understand.

And he said, "do not lay your hand on the lad, or do anything to him; for now, I know that you fear God, since you have not withheld your son, your only son, from me." (Genesis 22:12)

Build faith like Abraham who took a risk by taking his only son and almost sacrificed him but God provided a sheep. It's only by taking risk that God will reward you and it takes a step of faith to accept that risk. Abraham could not be the father of this generation if he feared taking the risk.

You might see it as unfair but know our God is the vindicator, he is going to win the battle for us. Having lived a mediocre life and remaining in that state is what the world can't entertain, you ought to let go and go back to your senses. The scripture also records of some individuals who had gone out of their senses by taking a mediocrity lane but later on they got back to their senses.

Reading about Paul is just one of the stories that will move you. The scripture tells us about Paul killing Christians, on the way he had taken a mediocrity lane. He was out of his senses not even realizing he was taking people's lives away. But God was in control, he changed Saul to Paul after going back to his senses and later on you will see Paul is the writer of the scripture being guided by the Holy Spirit. God gave Paul another chance to redeem his lost blessings. God wants the best of us.

You may say you are an addict of cigarette, pornography, sneaking out of school and even fornicating but God is giving you another chance to go back to your senses and realize your potential, stand up and say, no to mediocrity.

God is calling you for excellency don't sit back even David had taken a mediocrity way by sleeping with Uriah's wife and planned the death of Uriah but later on he went back to his senses and repented. Don't wait until you became a victim of mediocrity, this

owen mulinya kizito #another chance
is your time for excellency. Take a new lane, blessings are
awaiting you.

You belong to the stars

Chapter three.

*If you can motivate yourself
you don't have to depend on
any other external method
~unknown~*

Self-motivation

Just as we have realised in life you must be full of vision and goals to meet prosperity. If you have to be within the lane you have to be self-motivated, develop that ambitious way, curiosity and need to satisfy your mind with knowledge.

Self-motivation is equated to intrinsic motivation. Motivation within us, without an external force that makes us pursue an activity with vigour and persistence as opposed to those who are extrinsically motivated. They have to get that external move. They will always have excuses for their failures. Have a desire to be self-motivated.

Self-motivation is the beginning of academic and business trajectory or any other activity you may be pursuing whether personal or within an organisation. It will require you to have hope, faith and being humble.

Self-motivation is an aspect of reflection that will help you review your mistakes and start to strategize, reposition and reorganize for the best result, as you read this chapter think of restarting your plans with enthusiasm for the betterment of self being.

God created us to excel, he putted that motivation within us. That we should always get inspired to move whether we get afraid or meet tragic situations on the way, we should learn to overcome and don't let ourselves be victims but emerge victors.

A person who is self-motivated always keep pressing forward. Defeat is pronounced with the same intensity as leprosy and polio it doesn't exist in the dictionary of people who yearn for success. Success is not a one thing programme but what we set in the process of achieving.

Everything that we pursue is Gods calling and everything we undertake it's God's purpose. We should not be afraid we

owen mulinya kizito #another chance

should not feel inferior God is always in control. He knew the situation before us what we need is just take a divine step and review our strategies. It will start working again.

The scripture record about Jonah, he had a calling to serve but decided to escape. He didn't realize that it was God's calling and purpose for him to serve. When God has positioned you at certain point learn to seize and utilize the chance.

But the lord sent out a great wind on the sea, and there was a mighty tempest on the sea, so that the ship was about to be broken up.

Jonah 1:4

God always want us to be at our level best. When Jonah failed to go, he experienced some challenges until he decided to go and serve. Don't wait until you are swallowed by the fish for you to reposition and re strategize.

We should learn to encourage ourselves.

We should learn to avoid small mistakes.

We should always listen to God's voice.

We should always respect our dreams.

owen mulinya kizito #another chance

Yes, God wants us to re-strategize.

God doesn't want us to regret but to embrace success and happiness. Often times when you feel less motivated or discouraged don't allow it to destroy your inner-self, learn to be strong within the storm. Accept to be streamlined and it will work for the best. Always know God is in control.

~ KEEP PRESSING FORWARD ~

Keep pressing forward despite all circumstances. The background where you come from, don't blame it God knew the situation before you. He never wants you to remain in that position for long, look at Abraham the father of faith he actually came from a moon worshipper background but that did not hinder God purpose on his life. God uplifted him because he kept pressing forward despite the background, you will always prosper.

Don't wish you had more money to buy hundreds of cars but start with the small that you have. Don't wish that you were clever than your friends, start working on your books now, the time for God's blessing is now, He is going to reward you for your work, you are going to excel despite the unfair situations in front of you. God's time to bless you is now.

owen mulinya kizito #another chance

God's favour is upon you, he calls you for greatness and assures you that you shall go out in joy and be led back in peace, the mountains and hills before you shall burst into songs and all the trees of the field shall clap their hands.

The book of Job records of a man who experienced difficult times in his life. He lost everything even his own health but this did not stop him from pressing on. Job continued despite the circumstances and condition.

Let's be like Job despite the failure to meet our targets and goals. We will not give up instead give an extra step to make it work there is a bright door ahead. God reminds us in

Romans 8:28

And we know that all things work together for good to those who love God, to those who are the called according to his purpose

~ THE COME BACK POWER ~

All of us are the work of the hands of the mighty God, he created us in his own image and likeness. Thus, we should not despair or give up because we have a promise of a brighter day

owen mulinya kizito #another chance

a day to celebrate for the victory we achieved and the good things we did.

You may be asking yourself many questions and seems that you may never rise up but our God is a God of chance he offers you another chance, to restart and review where you went wrong. He is going to be with you but unless you take that step of faith to let go of the past.

²¹“And the son said to him, ‘father, I have sinned against heaven and in your sight, and am no longer worthy to be called your son.’ ²²“but the father said to his servant, ‘bring out the robe and put it on him, and put a ring on his hand and sandals on his feet.

Luke 15:21-22

It could be worse and more troublesome if the prodigal son could not have initiated that step of faith and go back to his father's house. The prodigal son could still be in the same den of living a foolish life a life without a destiny, a life to push days towards his burial, but he decided to live a life of purpose, even if it's to become a servant in the house of his father. Why don't you want to live a purposeful life, take this step of faith

owen mulinya kizito #another chance

and start working on your weak areas, you deserve better than eating with the pigs.

Accept your situation and be like the prodigal son, overcome the fear, motivate yourself that you can overcome it, start moving to your father's home. Start and work on your goals now, move closer to those books and they will celebrate your coming, move closer to building that house and the bricks will celebrate your initiative, move closer to that business again because customer is going to celebrate your come back.

You will receive breakthrough just like the prodigal son who didn't expect to be received with celebrations and harmony, the celebrations belong to you don't look back about the rough roads, the conditions and circumstances you were in keep pressing on because your time is now.

There was this fine day when a friend visited. We engaged ourselves in conversations surprisingly he did not start it the African way expecting so much greeting because of so many years of being away from each other. He started at a lower note by inspiring me, motivating me and reminding me that always give priorities to whatever it deserves. It was shocking.

owen mulinya kizito #another chance

We kept the conversation going and told me he regretted all the opportunity he had lost because of not utilizing them well. He could spoil whenever he had or let them go. My prayer is that you will learn to utilize the available opportunities well.

He dropped out of high school because he felt like he was ruling the “world” but he started regretting having lost that precious time. Utilize that God given chance to be in that precious school, be curious venture into any academic faculty that is helpful to the growth of your academic dimension.

Do you want to regret over the prep you have been sleeping?

Do you want to regret over the troubles you have been causing around?

Then start utilizing that time at your disposal engage in activities that will benefit you, activities that will make your dreams become valid. Don't sit and imagine dreams are fashioned by just sitting on that desk.

My friend went back to school after staying home for three years, he finished and got a job though not well paying but he survived through the internal promotions of the company. Every time there was an internal promotion he could make at the top and an added allowance but every time he got a

owen mulinya kizito #another chance

promotion pride developed and started thinking otherwise, he wanted too much, but why because he didn't realize that in life we are all beginners.

~ We are all beginners ~

Most of us do not want to be beginners but let us be convinced of the fact that we will never be anything better but be beginners all our life. We all started with a bad grade, poor performance in math, a falling and collapsing business, losses after losses, a poor quarrelling family, poor health. That should not make you remain in that condition and situation of mediocrity.

Strive for excellence by motivating yourself. You can make it, you can improve your results, you can start making profits in your business it doesn't matter what you think of but we must begin from somewhere. That means you are growing. One day you were in oral stage and now you are a teenager or even in your thirties you keep growing you are never in kindergarten again stand up it's your time to pursue success.

~ IT'S YOUR TIME~

owen mulinya kizito #another chance

It's your time keep reminding yourself about the victory awaiting you. Always remember that you have a brighter star because you belong to the stars, everyone was born for God's purpose, it doesn't matter of what you think of yourself. Remember you have a brighter star and as a man thinks so he becomes think of achieving greatness, you will.

You may have encounter series of losses after losses, discouragements, failure and pain they should not make you give up. They are there to harden you to ensure you keep on the track. The scripture records in the book of Jeremiah that God sent Jeremiah to the potter's house and that's where Jeremiah was to receive God's message. Jeremiah found the potter, clay and a wheel used to model the clay. The clay had to be wheeled to ensure no stone was left inside and became fine to model a beautiful instrument. If the soil doesn't become fine the instrument modelled might break but if the soil is extra fine the instrument will last longer.

That is the way our creator is He wants to model us to become useful and potential human beings. He wants to model us for his purpose so as we don't break on the way but we emerge beautiful creatures for his purpose.

owen mulinya kizito #another chance

God has good plans for us and He wants us to emerge victors after being wheeled. That doesn't mean you will perish on the way but you have to remain strong do not be afraid. When you are through certain problems don't start cursing everyone. God is in control just learn to walk with him. God wants us to acquire the virtues of living a good life.

Virtues that will always remind you to move forward, to keep on keeping on and remain humble, prayerful and hopeful, we will always see God's blessing. Don't block God's blessing upon your life with obstacles such as disobedience and pride just stay on the right path.

~ God can restore time ~

The word look strange from a series of event since the world was created. We have seen the work of the supreme restoring time for those who meant to achieve what they want in life. Have you been wasting time in other things other than what you think is your call? Now believe, have hope and self-motivation. God can restore time for us.

¹ In those days Hezekiah was sick and near death. And Isaiah the prophet, the son of Amoz, went to him and said to him, "thus says the lord : 'set your house in order, for you shall die

owen mulinya kizito #another chance
and not live.’”² then Hezekiah turned his face toward the wall,
and prayed to the lord,...⁵ “Go and tell Hezekiah, ‘thus says
the lord, the God of David your father; “I have heard your
prayer , I have seen your tears ;surely I will add your days
fifteen years.

Isaiah 38:1-2,5

Hezekiah who was a king in the old testament and the time of his death seemed to be near but Hezekiah knew and had hope and faith that God is powerful and could restore the lost time. Hezekiah prayed to God for more 15years and God gave him the years.

God wants us to thrive!

God has good plans for us!

God wants us to fulfil our purpose!

I love Hezekiah since he stood bold, motivated himself in his death bed and prayed to God to restore time. Another powerful man who believed that God could restore time is Joshua. Joshua prayed for the sun to remain still and it obeyed.

They all knew the principal of faith and prayers. Do you have faith that God can restore all your time, whether you have been

owen mulinya kizito #another chance

a joker in school and exams are approaching? God can restore the time but don't play around waiting for exam time to restore time. God wants you to excel, stand out and be among the top students you weren't born a mediocre.

You have the potential within you whether your business is falling or any other activity, God is telling and reminding us he can restore the lost time. You have been sick in your bed without doing something and now you can pray to God to restore your time and do what you could not do.

Avoid fearing the unknown, the fear in within us is the voice weakening our strength. I can, you can, we can, don't be afraid for God is with you. It is our time to achieve, God has restored time by giving us another chance to start over, use this time, don't join the group of I wish I knew, don't join our predecessors of if I were given that time I would study, but engage in small activities that will bring fruitful things in your life.

Utilize this God given chance in school whether as a teacher or a student, it's your year to excel. It's your year to harvest results to take all of you students to university. The time is now, go ahead and make the most of this academic season.

owen mulinya kizito #another chance

God has given you another chance because

God wants you healthy.

He wants you perform well.

He wants you to celebrate.

He wants to take care of your business.

God wants you to excel.

Don't be contended with your current situation but go ahead and claim your part, your portion for excellency.

I want to encourage you to go for excellency, you have the potential, you have the opportunity, you have the means and God has already purposed that you make it.

We are waiting to celebrate you

Chapter four.

*My greatest concern is
not whether you have failed
but whether you are
contented with your failure*

~Abraham Lincoln~

You were born for greatness

Sometimes in life so many people ask themselves many questions. “Why was I born?” and the answer is, you were born for greatness to solve problems and grow in every aspect of life.

Now that you know the reason for your existence you have to do what it takes to be great. Jesus never sat down until he finished and accomplished the great work he started. Don’t underestimate your potential it’s the right potential, try it.

Many are the times when we think we can’t but in reality we can it’s only the fear of the unknown hindering our

owen mulinya kizito #another chance

performance, don't allow that, stand bold with strength and courage and start working on your dreams. Everyone can achieve what is in the mind.

The scripture records the history and the journey of Jesus since he was born. Jesus knew from the first day that he was born for greatness and started working on his own esteem courage and development. He knew what it takes one to be great is not just mere laziness but through sheer hard work.

In the midst of temptation Jesus was able to overcome it may not be easy but if God is in control do not be afraid. Jesus was tempted three times but he was able to overcome all this events similarly you can escape all doubtful, fearful and failures events but it requires courage, do not fear for God assures that he is in control.

God wants us to be great. It's through Jesus overcoming those temptations that he became; great let's desire to be like Jesus.

~ Believe in what you are for ~

You must have something that keeps you going to achieve greatness everybody always has a dream but what do you do with that dream.

owen mulinya kizito #another chance

I want to be the top student in KCSE this year.

I want my business to grow beyond limits.

I want my farm to produce this year.

I want to travel abroad come next month.

But what are you doing with your dreams, do you let them flourish or just die as a dream?

You have to get that thing that will always remind you that you still pursue something, get a picture of you celebrating in front of your mirror it will always remind you of the awaiting celebrations come this year as you are announced the top student in KCSE. Get a picture of what you want your business to be like put it on your table it will always remind you your dreams. Similarly, if you want to build a house have a brick next to your door step it will always remind you of your good nice-looking house ready to be build.

You must have something to make your imagination real. Use that power of imagination to turn up things, they will work they must be achieved because God is in control, for Noah to finish building the ark he had to start building it in a place he could see it every day. If he could build it in a hidden corner, he could

owen mulinya kizito #another chance

forget he was working on an ark. Start pulling dreams close to yourself make them come nearer because you were born for greatness.

Start seeing it the positive way like

Am already a KCSE top scorer.

I already have the business at hand.

I have a nice house.

Believe in it because you have the opportunity and what it takes for you to achieve your dreams.

~ The choice is yours~

The power to choose depends entirely on you. The decision is purely yours; you can choose to excel or not, you can choose to prosper or drag behind but what we want is a better choice that will propel you to realize your destiny.

What we choose can make or destroy us but what we should know is that don't limit yourself to some decisions. we should think globally as the world is becoming dynamic, have that willingness to think apart from what surrounds you, we deserve more than that. We can limit ourselves to be failures, or just a

owen mulinya kizito #another chance

mere lonely guy but the choice is yours choose who you want to see in the mirror tomorrow.

Greatness is just a step ahead, if we don't limit ourselves. Am just a primary school teacher, am just a farmer, am just a small-scale business, say no to limiting mind, we can do better by choosing the right path.

The scripture tells us that choose today who you shall follow and you have to choose what you shall do. Choosing what to do requires a rational mind, don't choose because it happened, choose the right path that will make you reach the destiny desired. Declare today

I choose to follow success.

I choose to follow excellence.

I choose to follow good health.

I choose to follow business breakthrough.

I choose to follow the right path.

I happened to read a story of a teacher who studied at Egerton university, this is one of the few that make me not limit my minds. He took a bachelor of education (math/physics), lived

owen mulinya kizito #another chance

in a village in Bungoma but he decided not to remain in teaching as a profession but also thought globally. He chose the right path, the path to greatness. He works with a car selling company of Macedes Benz as the chief engineer. How great is he transforming the small physics to a mechanical engineering officer? Wow! it means you have the potential to transform the small knowledge that you have into something worthwhile. Yes, you can. You can be a cabinet secretary of agriculture from a farmer. Yes, you can. You can be the top student from bottom last. Don't limit your mind.

Prosperity is awaiting you. Just choose now, take a piece of paper and decide what to do. Write and place next to your mirror it will always remind you. You are the one to discover Covid 19 cure.

All this can be determined by our attitudes, don't place yourself in a friend's shoe, the fact that he failed you might fail that is a poor man mentality reject that attitude and declare the fact that he failed am going to try and pass. Remind yourself of greatness nobody was born to be a mediocre, choose the right path.

~ We are our father's child ~

owen mulinya kizito #another chance

This is one of the common human saying, 'I am my father's child'. Do you know what being a son/daughter entails? Do you know what means being fathered by the best dad? Similarly, we tend to portray our father's character, you will get that most doctors always want their sons to be doctors and just like other careers.

My father is a principled man and has developed a reading culture. Most are the times I find myself doing the same things. Did I inherit or they just came by, but these characters are passed through the genes, you can't avoid them, if they are good you have to learn to live with them?

We are our father's children and our father is God. This means that? We have the same traits as God. God is portrayed in the Holy Scripture as a supreme being with virtues. Virtues of courage, boldness, excellence etc. Let's behave like we possess the DNA of Christ. Always be bold to face any circumstance get that courage to always move on.

As our God is great so are we and that's why He created you to achieve greatness, purpose to be like your dad, the DNA is still fresh in us let's not be discouraged by any circumstance. Focus on your ball, you are almost scoring. This is your time,

owen mulinya kizito #another chance

today is the day, this is the month, this is the year for your celebrations.

~ Have the right mind-set~

At the deepest level, pride is the choice to exclude both God and other people from the rightful place in our heart pride destroy our capacity to love pride moves us to exclude instead of to embrace bow down before a mirror rather than serve and having pride is one step of having the wrong mind-set.

The holy scripture records of a Pharisee and a tax collector. They were together in a synagogue but the Pharisee had the wrong mind-set. Accusing and betraying the tax collector, he didn't have the right mind set and this denied him a chance, a chance of God blessings. You will notice that the tax collector had the right mind set, he knew he was a sinner and went to God for forgiveness and God gave him a chance to re-strategize and start a new way. God rewards people who have the right mind set.

¹¹ *"The pharisee stood and prayed thus with himself, 'God, I thank you that I am not like other men- extortioners, unjust, adulterers, or even as this tax collector. ¹² 'I fast twice a week; I give tithes of all that I possess. ¹³ "And the tax collector,*

owen mulinya kizito #another chance

standing a far off, would not so much as raise his eyes to heaven, but beat his breast, saying, 'God, be merciful to me a sinner.'"

Luke 18:11-13

Have you tried having the right mind set in class, in business or anywhere you step, change your mind to thinking rightly?

Think of God's blessings.

Think of prosperity.

Think of celebrations.

Think of a happy life.

Great people think right, don't be discouraged by any unsuccessful mind, don't think like your friends they may be wrong, think of greatness because you are great you are a wonderful person.

Set your mind rightfully because people who achieve are not different from you it's only the pattern of thinking that determine where you go.

If we observe and reflect and commit ourselves to giving our best, we will come out on top {ben Carson}

owen mulinya kizito #another chance

~ Honour God in what you do ~

Do you honour God in whatever you have, what you desire or crave for? What we forget easily is that all things belong to Him and honouring him is part of realising our blessings have you ever met a great man in the village and ask him about his principal, they will always tell you to honour God in whatever you are doing.

Honour God in whatever small or big you have so that the supply may continue being plenty. God wants us to be great people and above all a great nation. It's unfortunate that we forget he has good plans for us, we possess his DNA and also forget that we should honour him.

This is the art of receiving God blessing that will propel you to greatness, the time is now to ensure all doors are opened, no door is remaining locked this day. God is going to open the door of success the door of greatness. We possess the key but we have locked them ourselves take this moment and honour God.

Honour God in your coming exams you will see celebrations.

Honour God in your recovering bed, you are not going to spend an extra day there.

owen mulinya kizito #another chance

Honour God in your growing business and it will expand beyond expectations.

It's time to initiate and reprogramme our mind to God. God reminds us that favour has been realised but we are running away from it. Move closer to God's favour and you will see financial break through, educational break through, health break through and all that you had planned this year.

~ Release your faith in a big way ~

This is your time, this is your moment to put your shoulder back, hold your head up and walk with confidence. Winning is in your DNA, if you are ready to release your faith in a big way. Don't just limit yourself God is happy when you have the strongest faith, believe you are going to excel in academics this year, believe in good health, believe in a global business because that is what you were meant for, to soar high.

Everywhere that surrounded me when I was in high school was the word another chance, I wrote it everywhere in my books, notebooks and on my lockers and I thought of writing a book. I sat down and release my faith in a big way and started writing a manuscript about another chance now I can read it published. God wants you release your faith in a big way, you have to

owen mulinya kizito #another chance

discover the next planet, you have to sing songs, start believing.

Start thinking of the book you will write, the name of your business you are yet to start, your next level of education. Post it in your note book. God wants you release your favour in a big way because the time is now. Lift your head up and shout in capital letters the moment is now.

I remember six months elapsed and I had not yet started writing about the book but every time I opened my note book, I could see another chance; my class book, I could see another chance. It could remind me about my dreams. Start now don't hesitate because regrets are not our portion. Your time is now.

~Your dawn is today~

The day of salvation has come, the day of breakthrough is now. There is no need to wait any longer, let your life begin again. The dawn is new, this is your year, this is your season, this is your chance, this is your moment, this is your dawn.

Now is the moment for possibilities you have to finish with power, you have to be great, you have to live a purposeful life no more regrets, no more tension, no more fear, no more failure because the dawn is today. Today is promising and that's why

owen mulinya kizito #another chance

the dawn has come, the sunrise is rewarding embracing its beauty. The sunrise is just direct to you don't be afraid to appreciate the beauty of the dawn.

Have you ever watched on how the sunrise makes the dew to escape during dawn? if you have then this is the dawn where the dew of sickness is going to escape, the dew of failure is escaping, the dew of poor health is escaping. We are going to celebrate on dry grass as we roll ourselves and smile in the green pastures.

The dawn for greatness is today, release that faith in your life, stand up, put your shoulder high because the dawn has come.

The “dew” will escape

Chapter five.

We are what we repeatedly do,

excellence therefore

is not an act but a habit?

~Aristotle~

Pursuing success

Now you are ready to go, ready to pursue success, after having accepted yourself and striving for Excellency you will realize you were born for greatness and you will never take any moment in slumber but realizing and pursuing success. Success is what we admire and you have to be in pursuit for it.

Everyone admires success but what do you do to have it. You have to take that personal initiative and effort to follow a little more don't give up. The journey is becoming shorter and shorter each day. The more we push the more we get closer to the destiny. Every time, day we wake up, we think of ways of becoming successful but it just can't happen by sitting at the bed all day, sitting at the desk without doing any activity. It

owen mulinya kizito #another chance

requires passion, the heart to make things work. Use the power of imagination to start being determined towards your goal.

Move, the journey won't have shortcuts, it's you to make stepping stones to make it look short. Utilize every obstacle for the best don't start lamenting of the obstacles, God wants you happy and moving. He won't be happy seeing you stagnating on the sand of failure and bad health.

Life is an opportunity, benefit from it.

Life is a duty as an individual, complete it.

Life is a sorrow, learn to overcome it.

Life is a dream, start realizing it.

~ THINK ABOUT SUCCESS ~

Thinking is part of our daily activities and is not only for philosophers but all human kinds since it started with development of human kind. This is just to remind you that whatever you think of, you become. If you want to pursue success the arena for each of us, you must learn new skills and survival tactics. Change your thinking pattern and start thinking about success.

owen mulinya kizito #another chance

I remember before I even started writing about another chance, I could think of how to start it. I started reading other motivation books written by other individuals adjusted my mind and started thinking about motivation, thought of how I could transform and inspire you, have you ever thought of it. Start thinking of ways you can make it work for you.

If reading will make you successful, start thinking about it.

If writing will make you successful, start thinking about it.

If starting a business will make you successful, start thinking about it.

If marrying will make you successful, start thinking about it.

It was meant to be, just start working on it, think about success. God is happy with your thinking. He wants us to think of things that will make us grow. Don't stop to watch things that will make you think, close your eyes from them, don't listen to accusing voices, block your ears for them. Learn to stop things that will make you drag behind.

~ PROGRAMME FOR SUCCESS ~

If you organize your thinking pattern in an organized way, you now have to start programming for success. Don't just think

owen mulinya kizito #another chance

and stop it there it won't work unless you programme for the things you are craving for, start strategizing on your plans because you are almost there. A student preparing for exams start planning on how to succeed, lays plans and makes a suitable timetable. If you go for prep utilize that time and organize yourself. If it's to start a business start planning at your finance, have the books of accounts and plan for it to be a success.

Many individuals fall at this stage, don't accept to be a failure. You are not one. you don't belong to failures, you don't possess any bloodline of failures, say no to negative mind set. If you accept negative mind set you won't programme, but we have to plan and restrategize. If you had thought of success, be programmed. This is the time to sit down and restrategize, reposition and review where you went wrong. This is a God given chance to start again, we were meant to be successful. God wants to see us at the top, reunite your thoughts again.

Read stories of people in journals, magazine or even watch a television, you will see those people they once programmed themselves for success. They didn't give an ear to negative ideas, say no to poor performance because the past is gone.

~ HAVE A MENTOR ~

In life we all have that one person who we want to copy or be like, that's a mentor. You should have one who inspires you, be close to him and you will feel the pull of success. You will always do anything positive to achieve it. Never stop learning from others, learn from what you meet daily, learn from your mistakes, learn from your experience because learning is part of us. You stop learning, you start taking a wrong lane.

If you want to build a house learn how others did it, how they started from ground to cloud. If you want to pass exams learn from your friends how they stated planning until they realized their potential. It doesn't mean that you can't be like them. It's only that they took an initiative and started working to their level best and realized there potential. This is the time for you to overtake them, you just have to start working on your potential. you can!

God is happy with the step you are taking and he will reward you. You will realize in the event that those who get rewarded are those who worked to their level best moreover, God's reward is the best why don't you crave for it? Sometime your mentor may not be what you expect but don't be buried in the negativity. Move with positivity appreciate what's good and work for it because you were meant to be the best.

owen mulinya kizito #another chance

~ KEEP FOCUS ~

Why do you want to lose focus and we are almost there? Don't look aside, don't think about other things the journey is closer than you think. If you think of the past, you may lose focus, we want to remain focused until the end.

You are closer than you think, (Joel Osteen). I was almost losing focus back in secondary level. English had become a leprosy in my life I didn't want to see it, but I kept focus, I could look for treatment with failure but I didn't give up. I struggled to get a better grade in English and finally I got. Don't allow your lane to be attacked by losers keep the ball rolling.

Be close to people who will always remind you to keep your focus. You are in your final year keep focus; you are almost there. You are next to the finish line, you are becoming the top scorer, you are the best, keep the ball rolling don't stop it. God is happy with the way you are keeping focus. keep focus because...

You are closer to celebrations.

You are closer to good health.

owen mulinya kizito #another chance

You are closer to buying a new home.

You are closer to financial breakthrough.

You are closer to good grades.

If we continue keeping focus in whatever we do, we will always emerge at the top and inspire others to keep focus too. Learn that a good player inspires others but a great one inspires himself.

~ EXCEED EXPECTATIONS ~

Everything requires a mind beyond the ordinary, a mind that think extra ordinarily, a mind that crave for success. Now take it, it belongs to you. Have you ever thought of achieving extra ordinary things? Success is not far from you but if we exceed our expectation from normal to more we will and we shall. I love the story of David in the holy scripture he exceeded the expectation of many by killing Goliath and by doing that he became the greatest king of Israel.

Just try harder in your education, try harder in your business, exceed the expectations, start reading those books, turn the pages, go for prep and study. Just do more than you have been

owen mulinya kizito #another chance

doing, add an extra effort to your habits and everything will start changing for the better.

People will doubt you; they will discourage you, always remind yourself am in pursuit of success. Claim your portion by doing the extra ordinary. Speak of health even if you are sick, speak of celebration even if the grades are not working, they will soon work.

Never doubt yourself that you were never meant to be. Before I wrote this book, I doubted my English because I performed poorly but I exceeded the expectation, I sat down and realize that, that will not limit me. You have to realize your potential by exceeding expectations, they thought you will never be, now you are.

~ BE OPEN FOR SOMETHING NEW ~

Don't say it's done there is always new things to learn as long as you want success, there are always new tactics, new lessons on how to approach what you desire. Learn from your environment, from friend and also teachers, as a student learn and be open for anything new gain that curiosity to open books. Read as many times as possible new ideas will make you grow, they will make you pass and you will celebrate.

owen mulinya kizito #another chance

As a business person also, we should be open to new ideas trending things they will show us places to venture our businesses, they will open opportunities to us, let's not sleep, let's yearn to learn new things each day. Never sleep without learning a new concept. Attend seminars, go for bench making, go for workshops, they will help in initiating the new ideas. Learn to interact with people, alone you are too small a number. Your brother has a useful information for you walk with him. New ideas will always work for the best.

Don't learn new negative things and start putting shoulders high. That's not the case, just learn from good friends, those who inspires you and have good virtues. If I could not be open for new ideas, I could have never met champions leadership institute which helped me realize my potential, always be ready and let's be open for new ideas.

~ MAKE IT A HABIT ~

What defines our character defines our habit. What's your habit? Reading new books, venturing into business, helping others. You have to be defined by what you like or what you keep doing. Don't be a symbol of negative habit, that's not your purpose, that's not your destiny.

owen mulinya kizito #another chance

Make success a habit because if you follow those small steps you are eventually great and in pursuit of success, don't let go. Utilize the moment you have. Concentrate on what's important for you, learn the art of priorities before you became a hero of the world, first became a hero of your world. You will realise the sweetness of being a hero of your world.

Make excellence a habit.

Make happiness a habit.

Make celebration a habit.

Make good grade a habit.

Be a hero of your world and finally the crown will just fit you.

Another chance for future breakthrough.

Be a hero of your world.

owen mulinya kizito #another chance

CONCLUSION

Another Chance is meant to arouse your potential to start again. It's not the end just stand, review restructure and reposition. You will finally succeed; you will make it to the finish line. God wants you to make it that is why he is giving you another chance.
